Subject: RE: Grenada

Ever hear of Moose Lodge or 16th Section? How old is the Luvata/Outokumpu Heathcraft plant? They never had a spill?

Just looking for that other PRP.

A fairly long distance from our site – for on-site releases. Burning of TCE for heat recovery seems not very plausible, given that it does not have much heat value and can be destroyed by burning, but you need a fuel to accomplish this.

Jim:

What can you glean from Luvata Grenada, LLC in the following link? Lots of TCE “burned” offsite for energy recovery.
